

SIT723 Research Project A

Pass Task 2.1: Project Progress Report - 1

Overview of the task

In this task, you will provide a progress report of your research project. Provide an updated weekly plan with the milestones which you have achieved so far, and the ones that you plan to achieve until the end of the trimester. Also report all the supervision meetings' plan, including the past meetings and future meetings, and your worklog.

In this report, you should also provide evidence (relevant to your target grade) on how do you meet all the criteria for that grade based on your progress so far, in particular the literature review.

Systematically collecting and presenting all the evidence will help you remain on track for your target grade. Use the status report template provided.

Submission Details

Please use the template available on the CloudDeakin and OnTrack sites for this task. After completing the task as per the instructions provided in the template, export your document into PDF format and then submit via OnTrack.

Useful Information

- Each research project is unique, and can have a different path during the trimester. However, you can use the suggestive plan document as a benchmark to assess your project's progress.
